PRODUCT

How to use

- Guide to Soda Crystals Solution Strength
- Strong: 1 cup (200g) to 1 pint (500ml) of hot water.
- Regular: ½ cup (100g) to 1 pint (500ml) of hot water.
- Mild: 1 tablespoon (20g) to 1 pint (500ml) of hot water.

How it is promoted

- Just some of the many uses:

Cleaning:

- Washing machines: Removes odours and build-up
- Sinks and drains: regular use prevents greasy build-up, keeping odours at bay and maintaining flow.
- Surfaces: Dissolves grease and removes grimes from pans, extractor hood, BBQs, etc.
- Laundry aid: Softens hard water
- Prevents limescale: Meaning lower electricity bills.
- Less detergent needed
- Helps remove grease and stains: In wash or pre-soak

Warnings

- Do not use soda crystals in contact with aluminium
- Avoid varnished and lacquered surfaces
- Not to be used in drinking water
- Users with sensitive skin should avoid prolonged contact with highly concentrated solutions of soda crystals
- Store in a cool dry place below 25 degree celsius
- Causes serious eye irritation – keep out of reach of children – wash hands thoroughly after handling. Wear protective gloves/ protective clothing/eye protection/face protection.
- F IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
